#### MONTHLY FINANCIAL REPORT SUMMARY

#### **OCSCC 893**

#### December 2017

#### Revenue

All condo fees to date have been invoiced.

#### **Expenses**

Utilities overall are under budget this year to date. Water and telecom is very slightly over budget. Where as gas is well under budget and hydro is slightly under budget...

Contracts are all showing under budget for the year so far, however, some invoices are still coming in as they were still being delivered to the previous management company despite the contractors having been notified of the change. We are working hard to ensure these suppliers invoices are paid, however they have all been notified via email and phone so any delays are due to inaction on their part. We will be monitoring bills to ensure no interest charges are being applied. There are several invoices for elevator maintenance and repairs that we are in the process of sorting out with the elevator maintenance company as these invoices are for service that took place under the previous management company and we want to ensure they are valid. Some invoices are for service in a prior year.

General Repairs and Maintenance are showing over budget this month due to an invoice for repairs to unit 318 for mold removal and repairs due to a previous leak that occurred under the previous management company and an investigation into a leak at unit 409 and the 4th floor hallway. Overall, General Repairs and Maintenance are over budget for the year due to some large elevator repair expenses, including the Cat 5 testing that was completed.

#### Conclusion

At this point the corporation is overall still within budget but we continue to receive invoices for prior months that are being forwarded by the previous property management company. We have contacted all contractors with the new contact information for them to send their invoices to us and continue to do so. Generally, we are seeing less of these mis-addressed invoices.
